

SHELLFISH COMMISSION AGENDA March 10, 2020

1. Acceptance of February meeting minutes.
2. Treasurer's report.
3. Coordinators report .
Latest Sampling update
Second Captain - Town Acceptance/DABA training schedule
DABA qualifying Commission Members for sampling.
Discuss "kicker engine" as back up and also for improving the boat's "shallow water" capability.
4. UCONN. PFAS. Awaiting news from UCONN re planned dates for sampling.
5. NOAA. Greenwich Cove Oyster project last run?
6. Atlantic Clam Farms – general update.
Greenwich Channel dredge. Race channel study completed and reported few oysters in this area of the channel, but a sufficient clam population exists that should be moved before channel dredge.

Will discuss with Ed this week re the above and his plans to harvest clams from the additional beds including the Mianus River.
7. Oysters - Steve has expressed some concerns about the oyster population density in the middle areas of the cove. Discuss sourcing.
8. BOP Monday Summer Science at Innis Arden cottage. Discuss plan.
9. GCD/BOP School Oyster Cage project – GCD inspected their Cage on February 19th to take measurements of the seed oysters. Awaiting results and next step as to how the Commission can assist them.
10. Lucas Point Oyster Seeding Project/DABA sampling report for Lucas Point Cove Area.
DABA has responded to the project description with suggestions and instructions on how proceed.
10. Old Greenwich residents Oyster Seeding project. Next steps
11. Experience the Sound 2020 next June 21st – website etc.
12. Confirm Shellfishing demonstration dates?
13. Kelp Farms update
14. New Business
