First, it was mentioned that recommendations should be prepared for the First Selectman and a meeting requested during July 26-July 28. Next, the First Selectman should submit the recommendations to the Board of Selectman by August 2 for consideration in their August 12 and August 26 meetings. Finally, the recommendations should be submitted to the RTM by August 27 to be included in the Agenda for the September 27 RTM meeting.

4. **Greenwich Hospital case study on food waste separation and disposal.** Mike Wolpensinger discussed Greenwich Hospital's food waste separation and disposal program, using Curbside Compost, focused on the food service operation of the hospital. In May, the first month of operation, the hospital separated and disposed of 5,000 pounds of food waste. By June, the total had increased to 8,000 pounds. Mike expects this number to rise as the food service operations become more efficient and other departments join the effort. He will write this as a case study for businesses and include it in the final report.
