It was RESOLVED that said appeal be granted on the following grounds:

After due consideration, the Board finds there is hardship due to the lot's shape combined with its size. Therefore, the requested variances of front and rear yard setback is granted from sections 6-203 and 6-205

The Board further finds that this relief can be granted without detriment to the public welfare or impairment to the integrity of the regulations.

APPEAL No. PLZE2 01900299

Appeal of 51 Mooreland, LLC., 0 John Street, Greenwich for a variance of allowable accessory structure on a vacant lot and accessory structure height to permit a bird observation stand on a lot without a primary structure located in the RA-4 zone.

It was unanimously RESOLVED that said appeal be granted on the following grounds:

After due consideration, the Board finds there is hardship due to the practical difficulty of wanting to erect an accessory structure for the purposes Bird watching while keeping the area undeveloped. The regulation which requires there to be a principle structure would create undue hardship as this would be counterproductive to the desired use. Therefore, the requested variances of allowable accessory structure on a vacant lot and accessory structure height is granted from sections 6-144(a), 6-147(b), 6-203 & 6-205.6-203 and 6-205

The Board further finds that this relief can be granted without detriment to the public welfare or impairment to the integrity of the regulations.
