**Review Performance of Trust**

Ms. Murphy distributed the January 2016 OPEB Investment Performance report and related materials. She asked the Board to review the new Bloomberg reporting format and make recommendations on how to customize it to OPEB's needs. She commented on January's market volatility affecting both the Equity and Fixed Income portfolio returns which were behind their benchmark; the total portfolio decline for the month was \$911,000 or -4.46%.

Ms. Murphy added that the portfolio's weighting was within the allocation target. Mr. Pellegrino commented that Fixed Income investments had performed relatively well during the January period.

**Discussion of investment strategy, including sector weightings, and review selected funds for consideration (equity and fixed income)**

Mr. Pellegrino launched the discussion inviting the Board to consider the current weighting of Equities over Fixed Income in the portfolio. He asked the Board to consider: 1) developing a strategy for increasing the Fixed Income portion of the portfolio; 2) changing the weighting to more Fixed Income investments; 3) investing in instruments without oil holdings. Mr. Ferdinand commented that meeting monthly should not mean managing on a monthly basis and did not support the suggestion. Mr. Pellegrino proposed customizing the Bloomberg Report so that a price-point was established for each fund in the portfolio to apply the strategy of averaging-in future investments as the market stabilized.

Mr. Stricker proposed selling the balance of the portfolio position in Oppenheimer Global Opportunity (OGIYX), freeing up approximately 3% (\$604,000+) of the .portfolio for investment in Vanguard Short Term Corporate Bond Fund (VSCSX).

Upon a motion by Mr. Ferdinand, seconded by Mr. Stricker, the Board voted 3-0 to sell OGIYX.

Upon a motion by Mr. Ferdinand, seconded by Mr. Pellegrino, the Board voted 3-0 to buy VSCSX with the proceeds of the sale of OGIYX.

### **Update on Bloomberg initiative - reporting**

Mr. Stricker asked Board members to review what excess information could be removed from the Report for the next meeting. Ms. Murphy noted that the Vanguard information was downloaded daily and currently required manual updating.
