

Election Day Registration

If all voter registration deadlines have been missed, a bona fide resident of the town of Greenwich may register to vote and cast a ballot at the special Election Day Registration location, on the second floor of Greenwich Town Hall. Election Day Registration is from 6AM to 8PM.

A voter must bring the appropriate proof of identity and residency. See back of this document for acceptable proof.

The Election Day Registration process requires verification that the voter is not registered to vote in any other municipality in CT, or, if the voter is registered, election officials must determine that the individual has not voted in the other municipality by telephoning the corresponding Registrars of Voters.

The entire process is lengthy, as it includes voter registration, verification, and then finally the actual casting of a ballot. Depending on the popularity of this option and the individual voter's circumstances, wait times can vary from a minimum of 20 minutes to an hour.

This option is only available at the EDR location in Town Hall. It is not available at neighborhood polling places.
