Girls Softball Spring 2020 Ages 9 – 14

ACTIVITY NUMBER: 10501

DESCRIPTION: The emphasis of Babe Ruth Softball is on education, skill development, participation for players at all levels of athletic ability, and to ensure the participants have FUN. The Greenwich Girls Softball League is organized according to 1) Age: 9 & 10 years (**10U**), 11 & 12 years (**12U**), 13 & 14 years (**14U**) and 2) Ability: **Intermediate** Division, **Senior** Division, and **Travel** Division. Most players will participate on a house team (recreational/modified rules) and be placed in either the Intermediate or Senior Division. Those that are ages 12-14 with more experience may select to participate on the travel/official rules team.

The **Intermediate** softball division is designed for girls in the 10U age group and some in the 12U. Among teammates of the same experience level, players continue building and refining their fundamental skills while they begin to understand game strategy. The game is played on a 60-foot diamond with a pitching distance of 35 feet. This is a **combined player-coach pitch league**.

The **Senior** division is for girls with prior experience playing softball at a more refined level. The game is played on a 60-foot diamond with a pitching distance of 40 feet. This is a **player-pitch only** division and a twelve-inch ball is used. Players in this division continue building and refining their fundamental skills, defining set positions, and applying game strategies.

***New** – the **travel** division is for girls ages 12-14 with previous experience participating on an “official rules” tournament team or currently participating on the Firebirds Town travel team. They will be entered into the CT State tournament and will have a larger commitment to travel during the spring season with other more competitive fast-pitch softball teams. (Check the box on page 2 if you’re interested in participating on the travel team).

REGISTRATION DATES:

- **Online: Monday, January 27** - online registration is only available to Greenwich residents. To register online go to www.greenwichct.gov/webtrac and select “Activity Registration.”
- **Mail-in: Monday, February 10** - application should not be postmarked earlier than February 10.
- **In-person: Monday, February 24** at the Parks and Recreation Office. Non-residents may sign-up starting Monday, February 24. Registration closes Friday, March 13 or when the program has filled; space is limited.

Greenwich residents are required to provide proof of residency once per calendar year for all Parks and Recreation programs.

The primary family member is required to provide two current proofs of Greenwich residency. Family members participating in this program who are over 25 years of age require one current proof of Greenwich residency. Acceptable proof documents with resident name, date and Greenwich address are as follows: Residential Lease; Utility bill (Gas, Electric, Water, Oil); Cable, Telephone, or Internet bill (not cell phone); Credit Card or Bank Statement (No Mortgage Statement); Driver’s License or DMV CT State ID. Family members participating in this program who are under 25 years of age, require a copy of their birth certificate, passport, or guardianship on file.

For non-residents, the primary family member as well as all participating family members who are over 25 years of age must provide identification and proof of address. Non-resident participants under 25 years of age, require a copy of birth certificate, passport or guardianship.

DATES: Spring softball starts April 4 (depending on field conditions) with practices. Games begin the end of April/early May and are mainly played on the weekends with occasional weeknights. The house league/spring season ends June 13. Players participating on a travel team will continue play after June 13 and through the week of July 4.

PARENT & ATHLETE CONCUSSION INFORMATION SHEET

WHAT IS A CONCUSSION?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

WHAT ARE THE SIGNS AND SYMPTOMS OF CONCUSSION?

Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury.

If an athlete reports one or more symptoms of concussion after a bump, blow, or jolt to the head or body, s/he should be kept out of play the day of the injury. The athlete should only return to play with permission from a health care professional experienced in evaluating for concussion.

DID YOU KNOW?

- Most concussions occur without loss of consciousness.
- Athletes who have, at any point in their lives, had a concussion have an increased risk for another concussion.
- Young children and teens are more likely to get a concussion and take longer to recover than adults.

SYMPTOMS REPORTED BY ATHLETE:

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Confusion
- Just not "feeling right" or is "feeling down"

SIGNS OBSERVED BY COACHING STAFF:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes
- Can't recall events prior to hit or fall
- Can't recall events after hit or fall

▶ **"IT'S BETTER TO MISS ONE GAME THAN THE WHOLE SEASON"**

CONCUSSION DANGER SIGNS

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body s/he exhibits any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people or places
- Becomes increasingly confused, restless, or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously)

WHAT SHOULD YOU DO IF YOU THINK YOUR ATHLETE HAS A CONCUSSION?

1. If you suspect that an athlete has a concussion, remove the athlete from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says s/he is symptom-free and it's OK to return to play.
2. Rest is key to helping an athlete recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, and playing video games, may cause concussion symptoms to reappear or get worse. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional.
3. Remember: Concussions affect people differently. While most athletes with a concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer.

WHY SHOULD AN ATHLETE REPORT THEIR SYMPTOMS?

If an athlete has a concussion, his/her brain needs time to heal. While an athlete's brain is still healing, s/he is much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young athletes can result in brain swelling or permanent damage to their brain. They can even be fatal.
