ADMINISTRATIVE COASTAL APPLICATION REVIEW CHECKLIST

- Completed Site Plan Administrative Form.
- Completed Application for Review of Coastal Site Plan.
- 3 Copies of a site plan showing the existing and proposed conditions, including any proposed grading and drainage.
- 3 Copies of drainage forms that conform to the current Drainage Manual from the Town of Greenwich website.
http://www.greenwichct.org/Government/Departments/Public_Works/Engineering_Division/Stormwater_Information/drainage_manual/
- 3 Copies of your architectural plans and elevations (the same plans you will be submitting to the Building Department).
- Completed Inland Wetlands and Watercourses Agency Questionnaire, signed by an IWWA staff member.
- Certificate of Mailing receipts, list of all abutting neighbors, and a copy of the mailed letter (form letter in packet).
- GIS map (obtained from Information Technology Office).
- The original completed building permit application form.
- Grade Plane plans and calculations.
- Field Card (obtained from Assessor's Office).
- Greenspace calculations (based on the Town of Greenwich Building Zone Regulations 6-5, 6-98, 6-128, 6-131 & 6-205).
- A check for the correct fee must be submitted (see Fee Schedule).
- Properties located within the 100-year flood zone must comply with Section 6-139.1 of the Building Zone Regulations.
If your project is located within a flood zone, Planning and Zoning staff may request additional information as part of the review process.
- If your application involves any activity requiring a permit from DEEP/OLISP or the Corps. Of Engineers, a copy of everything submitted to them is required as well.

NOTE 1: If you are in the Coastal area as defined by C.G.S. 22a-94, the Building Department will **NOT** process your application until you obtain your Coastal signoff from Planning and Zoning.

NOTE 2: A majority of projects within the coastal overlay zone require sedimentation & erosion controls to be installed. Planning and Zoning staff must inspect the erosion controls on site prior to any sign-off or approvals for 1) the construction of a new single family house, 2) any project that disturbs more than one half (½) acre of land, or 3) any project located directly adjacent to the shoreline or coastal resources. Please factor this into your construction schedule when submitting your application.

All applicants must make an appointment to submit this application with the Applications Coordinator, Peter Mangs, who can be reached by (email) Peter.Mangs@greenwichct.org or (phone) 203-622-7894.

CERTIFICATE OF MAILING

An affidavit pursuant to Sec. 6-14(a)(16), certifying that all abutting property owners have been notified by mail as evidenced by a certificate of mailings or certified or registered mail receipts, about said application. Owners of lots, or portions of lots, which are across a public or private street shall be deemed to be abutting property. For projects which require preliminary review by the Conservation Commission, the notice shall be sent by the applicant two weeks prior to any scheduled hearing date by the Conservation Commission.

PS Form **3817**, January 2001

SUBMIT THE FOLLOWING FOR ALL P+Z APPLICATIONS:

EXHIBIT A

A schedule of names and addresses shown on a GIS map with lot lines indicating the location of the notified property owners. (This may be obtained from the GIS Office in Town Hall, Ground Floor)

EXHIBIT B: Sample notification letter

To whom it may concern:

Notice is hereby given that (name of the applicant) has filed an application with the Town of Greenwich Planning and Zoning Commission for (type of application) approval for (address).

Further information concerning this application may be obtained by contacting the Planning and Zoning Commission at 203-622-7894.

APPLICATION FOR REVIEW OF COASTAL SITE PLAN

Applicant's Name: _____ Date: _____

Address: _____

Project Address or Locations: _____

The following information must be supplied by the applicant and submitted in addition to, and along with, any application, plans and data required for approval of the proposed project under the zoning and/or subdivision regulations of this municipality. Attach additional sheets if more space is required.

I. PLANS

A. Project Plan(s)

This application must be accompanied by a plan (or plans) of the entire project indicating 1) project location, 2) design of all existing and proposed buildings, structures, and uses, 3) all proposed site improvements or alterations, and 4) ownership and type of use on adjacent properties.

B. Coastal Resources

This application must be accompanied by a plan showing the location of all coastal resources (as defined in Section 22a-93(7) of the Connecticut Coastal Management Act) on and contiguous to the site.

II. WRITTEN INFORMATION

A. Description of the Proposed Project

Describe the entire project including types of buildings and structures, uses, methods and timing of construction, type and extent of development adjacent to the site. This information should supplement and/or clarify plans in I (A) above.

B. Description of Coastal Resources

Identify the coastal resources on and contiguous to the site (as shown on the coastal resources map) and describe their condition. This information should supplement and/or clarify the plan in I(B) above.

C. Assessment of the Suitability of the Project for the Proposed Site and the Capability of the Resources to Accommodate the Proposed Use.

(1) Identify any and all coastal use policies (in Section 22a-92(10)(b)(1) of Connecticut Coastal Management Act) applicable to the proposed project.

(2) Identify and all coastal resource policies (in Section 22a-92(10)(b)(2) of Connecticut Coastal Management Act) applicable to the proposed project.

(3) Describe how the proposed project is consistent with all of the coastal policies identified in C (1) and (2) above (i.e. describe the extent to which the project complies or conflicts with each policy). Note: If a project conflicts with any policy, the project should be modified to reduce or eliminate the conflict.

D. Evaluation of the Potential Beneficial and Adverse Impacts of the Project and Description of Proposed Methods to Mitigate Adverse Effects.

(1) Identify and describe the potential adverse impacts (as defined in Section 22a-93(15) of Connecticut Coastal Management Act and potential beneficial impacts of the project on coastal resources.

FOR WATERFRONT PROPERTY ONLY:

(2) Is the project a water dependent use as defined in Section 22a-93(16) of the Connecticut Coastal management Act? If, so, explain why.

FOR WATERFRONT PROPERTY ONLY:

(3) Describe the impacts or effects (either positive or negative) that the project will have on future water dependent uses or development on and adjacent to this site as defined in Section 22a-93(17).

(4) Describe the proposed measures to mitigate (reduce or eliminate) any adverse impacts on coastal resources described in D(1) and, if applicable, on future water dependent development opportunities described in D(3).

E. Demonstration of the Acceptability of Remaining or Unmitigated Adverse Impacts on Coastal Resources and Future Water Dependent Uses and Development.

(1) Describe any adverse impacts that remain after employing all reasonable mitigation measures.

(2) Explain why these remaining adverse impacts were not mitigated.

(3) Explain why the commission reviewing this application should find these remaining adverse impacts to be acceptable.

PERMIT NEED DETERMINATION QUESTIONNAIRE
[This form is NOT an IWWA Application]

PROJECT: Street Address _____ GW CC RIV OG

PARCEL ID.# - Has there ever been an IWWA application for this site? YES NO Appl.# -

ACTIVITY: (Circle) Addition Demolition Deck Garage Interior renovations New residence Pool Tennis court
 Generator Site Work/Landscaping Septic Other (please specify) _____

Will this activity require an addition to the septic system or B100a? YES NO

FEE: \$65 for reviews requiring a site visit or further in office analysis

Owner's full name [please print] _____ Phone (____) _____

Mailing address _____ Town _____ Zip _____

Authorized Agent's name [please print] _____ Phone (____) _____

Mailing address _____ Town _____ Zip _____

A PLOT PLAN IS REQUIRED SHOWING THE PROPOSED ACTIVITY IN RED.
Staff cannot review your proposal without a plan.

IWWA staff will review this questionnaire to determine if regulated activities are associated with the proposal and whether an IWWA permit is required. Do not apply for a Building Permit until this review is complete.

If your project **does not require** an IWWA permit, we will sign off on this questionnaire, which you will need if you are obtaining permits from other departments.

If an IWWA permit **is required**, we will supply you with a permit application packet. You must obtain an IWWA permit prior to the commencement of your project. **No work may begin until you receive an IWWA permit.** The issuance of a building permit alone does not constitute an authorization to proceed.

If you do not receive notice regarding your questionnaire within two weeks of submission, please contact the IWWA office.

As the **property owner** or, **authorized agent** [check one] I believe that the information I have submitted is correct.

Signature _____ Date ____/____/____

If mailing, **return** completed form.

If a site visit is required, you will be notified and asked to remit a \$65 fee (**payable to "Town of Greenwich"**) to the **Greenwich Inland Wetlands & Watercourses Agency**.

The site visit will not take place until this fee is received.

Declaratory Ruling

(To be filled out only when directed to by IWWA staff)

There is a \$30 fee for Declaratory Ruling

1. Purpose and description of proposed activity: _____

2. Present use of property in area of proposed activity: _____
3. Distance of closest disturbance to Wetlands/Watercourses: _____
4. Site acreage: _____ Wetland acreage: _____ Linear feet of watercourse: _____
5. Submit **one (1) copy** of the following information:
 - A) ___ Site plan showing:
 - a. ___ existing and proposed features, with detail and accuracy sufficient to understand full scope of proposed work.
 - b. ___ the location of any wetlands or watercourses and the upland review area for each.
 - B) ___ Written consent of owner to the proposed activity, if the applicant is not the property owner.

By signing this application, the applicant or his/her agent certifies that he is familiar with the information provided in this application and is aware of the penalties for obtaining a permit or ruling through deception or by submission of inaccurate or misleading information.

By signing this application, permission is hereby given to conduct necessary and proper inspection of the subject property by the Agency members and designated agents of the Agency, at reasonable times, both before and after a final decision has been rendered.

Owner's Signature: _____ **DATE:** _____

Agent's Signature: _____ **DATE:** _____
(When applicant is not owner, owner's authorization is required)

By signing this form, the IWWA Authorized Agent acknowledges a regulated activity is proposed within an upland review area; however the activity is so minor as to have no potential effect on the wetland or watercourse. The activity is therefore authorized.

Authorized Agent's Signature: _____ **DATE:** _____

STORMWATER MANAGEMENT STANDARDS – DRAINAGE REPORT EXEMPTION

Project Name _____

Project Address _____

Project Lot Number(s) _____

Property Owner(s) _____

Tax Account Number(s) _____ Zone(s) _____ Lot Area _____

1. Check all that apply to the proposed project:

- This is a new development or redevelopment project,
- The project will result in an increased amount of stormwater runoff and/or water pollutants flowing from a parcel of land (prior to the application of stormwater Best Management Practices),
- The project will alter the drainage characteristics of a parcel of land (prior to the application of stormwater Best Management Practices).

Categorical Exemptions:

2. Does the proposed project meet one of the following categorical exemptions? Check all that apply:

- Normal maintenance and improvement of land in agricultural use (as defined by Connecticut General Statutes), provided such activity conforms to acceptable management practices for pollution control approved by the Connecticut Department of Energy and Environmental Protection and the Greenwich Inland Wetlands and Watercourses Commission. This exemption does not apply to construction activities that are not directly related to the farming or agricultural operation.
- Routine maintenance of existing landscaping, gardens (excluding structural modifications to stormwater BMPs including rain gardens) or lawn areas including those maintained by the Town of Greenwich Parks and Recreation Department and Board of Education.
- Resurfacing of an existing impervious area on a non-residential lot such as repaving an existing parking lot or drive with no increase in impervious cover.
- Routine maintenance to existing town roads that is performed to maintain the original width, line, grade, hydraulic capacity, or original purpose of the roadway.
- Customary cemetery management.
- Emergency repairs to any stormwater management facility or practice that poses a threat to public health or safety, or as deemed necessary by the approving authority.
- Any emergency activity that is immediately necessary for the protection of life, property, or the environment, as determined by the approving authority.
- Repair of an existing septic system.
- Construction of utilities (gas, water, electric, telephone, etc.), other than drainage, which will not permanently alter terrain, ground cover, or drainage patterns.
- Repair or replacement of an existing roof of a single-family dwelling.
- Construction of a second (or higher) floor addition on an existing building.
- Construction of a maximum 12 foot x 12 foot shed. The construction must include the installation of a 1 foot wide x 1 foot deep crushed stone trench along the sides of the shed that discharge the roof runoff.
- The repair of an existing wood, composite, or plastic deck with no proposed enlargement of the deck surface.

Town of Greenwich
Department of Public Works - Engineering Division
Town Hall - 101 Field Point Road, Greenwich, CT 06836-2540
Phone 203-622-7767 - Fax 203-622-7747

- The reconstruction or construction of a wood, composite, or plastic deck with the decking boards spaced at least 3/16 of an inch and a pervious surface below the deck. The pervious area below the deck must have the soil tilled 12 to 16 inches and finished with grass seed, sod, or crushed stone. The minimum depth for the crushed stone is 4 inches. A site plan showing the proposed location of the deck and construction details for the deck must be submitted.
- The construction of any fence that will not alter existing terrain or drainage patterns.

If so, the Greenwich Stormwater Management Standards shall not apply, and submittal of a Stormwater Management Report is not required. However, application of the standards is still strongly encouraged.

Conditional Exemptions Requiring Certification from a Professional Engineer:

3. **For projects adding up to 500 square feet of impervious surfaces¹:**

The project design, including the proposed drainage design, if any, will not have an adverse effect on offsite properties or offsite drainage infrastructure, as certified by a professional engineer.

At least one of the following measures shall be implemented on the project site to help mitigate the effects of site disturbance and new impervious surfaces within its on site watershed and point of concern:

- Disconnection of roof down spouts that meet the Simple Disconnection standards in the Town of Greenwich Drainage Manual February 2012 as amended
- A zero increase in peak flow to all points of concern for the 1, 2, 5, 10, and 25-year design storms
- The runoff volume from the new impervious surfaces shall be infiltrated for the 10-year design storm
- Constructing a bioretention area for the Water Quality Volume of the contributing watershed of the project area. The design standards in the Town of Greenwich Drainage Manual February 2012 as amended must be met
- Creating a buffer with a length greater than or equal to the length of the project area and a minimum width of 10 feet planted as a meadow
- Restoring a riparian buffer (may require IWWA permit)

For projects that meet the above criteria, the project proponent shall submit Pages 1, 2, 3, 5, and 8 of this exemption request form and all computations and any additional drainage documents (Soil Evaluation Test Results, Watershed Maps, Etc.), in lieu of a Stormwater Management Report. The application of the Greenwich Stormwater Management Standards is still strongly encouraged.

For projects that meet the above criteria, the project proponent needs to submit construction plans as required on the Checklist for Projects Submitting a Stormwater Management Standards – Drainage Report Exemption – Form CL-101.

For projects that meet the above criteria, the project proponent needs to submit the items on the Checklist for Operations and Maintenance Plan Report – Form CL-104.

For projects that meet the above criteria, the project proponent needs to submit the Certificate of Occupancy documents on the Checklist for Projects Submitting a Stormwater Management Standards – Drainage Report Exemption – Form CL-101.

Residential teardowns are not exempt unless the project meets the Conditional Residential Teardown Exemption Requirements.

Commercial teardowns are not exempt.

Conditional Exemptions Requiring Certification from a Professional Engineer:

4. For projects adding between 500 and 1,000 square feet of impervious surfaces¹:

The project design, including the proposed drainage design, if any, will not have an adverse effect on offsite properties or offsite drainage infrastructure, as certified by a professional engineer.

At least one of the following measures shall be implemented on the project site to help mitigate the effects of site disturbance and new impervious surfaces within its on site watershed and point of concern:

- Disconnection of roof down spouts that meet the Simple Disconnection standards in the Town of Greenwich Drainage Manual February 2012 as amended
- A zero increase in peak flow to all points of concern for the 1, 2, 5, 10, and 25-year design storms
- The runoff volume from the new impervious surfaces shall be infiltrated for the 10-year design storm
- Constructing a bioretention area for the Water Quality Volume of the contributing watershed of the project area. The design standards in the Town of Greenwich Drainage Manual February 2012 as amended must be met
- Creating a buffer with a length greater than or equal to the length of the project area and a minimum width of 10 feet planted as a meadow
- Restoring a riparian buffer (may require IWWA permit)

At least one of the following measures shall be implemented on the project site using LID or conventional stormwater BMPs to help mitigate the effects of site disturbance and new impervious surfaces:

- A zero increase in peak flow to all points of concern for the 1, 2, 5, 10, and 25-year design storms
- The runoff volume from the new impervious surfaces shall be infiltrated for the 10-year design storm

For projects that meet the above criteria, the project proponent shall submit Pages 1, 2, 4, 5, and 8 of this exemption request form and all computations and any additional drainage documents (Soil Evaluation Test Results, Watershed Maps, Etc.), in lieu of a Stormwater Management Report. The application of the Greenwich Stormwater Management Standards is still strongly encouraged.

For projects that meet the above criteria, the project proponent needs to submit construction plans as required on the Checklist for Projects Submitting a Stormwater Management Standards – Drainage Report Exemption – Form CL-101.

For projects that meet the above criteria, the project proponent needs to submit the items on the Checklist for Operations and Maintenance Plan Report – Form CL-104.

For projects that meet the above criteria, the project proponent needs to submit the Certificate of Occupancy documents on the Checklist for Projects Submitting a Stormwater Management Standards – Drainage Report Exemption – Form CL-101.

Residential teardowns are not exempt unless the project meets the Conditional Residential Teardown Exemption Requirements.

Commercial teardowns are not exempt.

PROFESSIONAL – EXEMPTION CERTIFICATION

I hereby declare that the proposed project will add the following amount of impervious surfaces to the project site (check the box that applies):

- 0 to 500 square feet (conditionally exempt with Professional Engineer’s Certification)
- 500 to 1,000 square feet (conditionally exempt with Professional Engineer’s Certification)

It is my professional opinion that the project design, including the proposed drainage system, if any, will not have an adverse effect on offsite properties or offsite drainage infrastructure.

I further declare that at least one of the following measures shall be implemented on the project site to help mitigate the effects of site disturbance and new impervious cover for 0 to 1,000 square feet (check all that apply):

- Disconnection of roof down spouts that meet the Simple Disconnection standards in the Town of Greenwich Drainage Manual February 2012 as amended
- A zero increase in peak flow to all points of concern for the 1, 2, 5, 10, and 25-year design storms
- The runoff volume from the new impervious surfaces shall be infiltrated for the 10-year design storm
- Constructing a bioretention area for the Water Quality Volume of the contributing watershed of the project area. The design standards in the Town of Greenwich Drainage Manual February 2012 as amended must be met
- Creating a buffer with a length greater than or equal to the length of the project area and a minimum width of 10 feet planted as a meadow
- Restoring a riparian buffer (may require IWWA permit)

I further declare that at least one of the following measures shall be implemented on the project site to help mitigate the effects of site disturbance and new impervious cover for 500 to 1,000 square feet (check all that apply)

- A zero increase in peak flow to all points of concern for the 1, 2, 5, 10, and 25-year design storms
- The runoff volume from the new impervious surfaces shall be infiltrated for the 10-year design storm

Professional Engineer’s Signature _____ Date _____

Professional Engineer’s Seal

Conditional Residential Teardown Exemption Requiring Certification by a Professional Engineer:

5. **For residential teardowns that reconstruct where the impervious surfaces within each point of concern is less than or equal to pre-development conditions and the peak flow and runoff volume for the 1, 2, 5, 10, 25, 50, and 100-Year Storms has a zero increase to all points of concern the following must be submitted:**

A Stormwater Management Report must be submitted with the following included:

1. Project Narrative
2. Site Inventory & Evaluation
 - a. Topography
 - b. Soil Evaluation (Soil Evaluation Test Results (Form SC-101) Shall Be Used)
 - i. Initial Feasibility Evaluation (NRCS Web Soil Survey and similar sources of information)
 - ii. Concept Design Testing (test pits/borings and saturated hydraulic conductivity testing, as per Appendix B)
3. Evaluate Pre-Development Site Hydrology to all points of concern (Runoff Volume and Peak Flow Rate – 1, 2, 5, 10, 25, 50 and 100-Year Storms)
 - a. Watershed Map Pre-Development
 - b. NRCS Runoff Curve Numbers Pre-Development
 - c. Time of Concentration Pre-Development
4. Evaluate Post-Development Site Hydrology to all points of concern (Runoff Volume and Peak Flow Rate – 1, 2, 5, 10, 25, 50 and 100-Year Storms)
 - a. Watershed Map Post-Development
 - b. NRCS Runoff Curve Numbers Post-Development
 - c. Time of Concentration Post-Development
5. Peak Runoff to all points of concern must have a zero increase for the 1, 2, 5, 10, 25, 50, and 100-Year Storms
6. Runoff volume to all points of concern must have a zero increase for the 1, 2, 5, 10, 25, 50, and 100-Year Storms
7. Compare & Summarize Pre-& Post Development Site Hydrology for peak flow and runoff volume to all points of concern
8. Conveyance Protection: 10, 25, 50 & 100-Year Depending on Peak Flow Rate for Downstream Stormwater Facilities
9. Outlet Protection Calculations – Based on Conveyance Protection
10. Emergency Outlet Sizing: Safely Pass the 100-Year
11. Supporting Documents
12. Sealed and Signed By a Professional Engineer

For projects that meet the above criteria, the project proponent shall submit Pages 1, 2, 6, 7, and 8 of this exemption request form and a Stormwater Management Report. The application of the Greenwich Stormwater Management Standards is still strongly encouraged.

For projects that meet the above criteria, the project proponent needs to submit plans which include all items on the:

1. Checklist for Construction Plans – Form CL-102
2. Checklist for Driveway Profile and Sight Distance Plan – Form CL-103

For projects that meet the above criteria, the project proponent must submit an Operations and Maintenance Plan Report. The Operations and Maintenance Plan must be submitted following the Checklist for Operations & Maintenance Plan Report CL-104.

For projects that meet the above criteria, the project proponent needs to submit the items on the Checklist for Certificate of Occupancy – Form CL-105 with the request for Certificate of Occupancy. The Improvement Location Survey must include the items on the Checklist for Improvement Locations Survey Depicting ‘As-Built’ Conditions CL-106.

The use of this exemption removes any future additional construction on the property from using the Conditional Exemption regardless of ownership changes.
