DIVISION OF PARKS & TREES

LIST OF ACCEPTABLE TREE SPECIES FOR PLANTING IN TOWN

KEY TO PLANTING LIST

KEY TO INDEX OF TREE CHARACTERISTICS

SIZE, ADAPTATION, AND CULTURE		
1. Height at maturity	<div style="display: flex; justify-content: space-around; width: 100px;"> <div style="width: 10px; height: 10px; background-color: green; border: 1px solid black;"></div> <div style="width: 10px; height: 10px; background-color: yellow; border: 1px solid black;"></div> <div style="width: 10px; height: 10px; background-color: red; border: 1px solid black;"></div> </div>	Under 30' 30' to 45' Over 45'
2. Width of crown at maturity	<div style="display: flex; justify-content: space-around; width: 100px;"> <div style="width: 10px; height: 10px; background-color: blue; border: 1px solid black;"></div> <div style="width: 10px; height: 10px; background-color: red; border: 1px solid black;"></div> </div>	Less than 1/2 height Equal to height or wider
3. Hardiness in winter	3—9	Coldest USDA hardiness zone
4. Sun or shade requirements	<div style="display: flex; justify-content: space-around; width: 100px;"> <div style="width: 10px; height: 10px; border: 1px solid black; border-radius: 50%;"></div> <div style="width: 10px; height: 10px; border: 1px solid black; border-radius: 50%; background-color: gray;"></div> <div style="width: 10px; height: 10px; border: 1px solid black; border-radius: 50%; background-color: black;"></div> </div>	Requires full sun Tolerates sun or shade Prefers shade
5. Soil acidity	A N W	Acid soil required Neutral or acid soil preferred Wide tolerance of acid to alkaline soils
6. Soil drainage, compaction	<div style="display: flex; justify-content: space-around; width: 100px;"> <div style="width: 10px; height: 10px; border: 1px solid black;"></div> <div style="width: 10px; height: 10px; border: 1px solid black; background-color: gray;"></div> <div style="width: 10px; height: 10px; border: 1px solid black; background-color: black;"></div> </div>	High, medium, or low tolerance of compacted, droughty, or poorly drained soils
7. Urban stress tolerance	<div style="display: flex; justify-content: space-around; width: 100px;"> <div style="width: 10px; height: 10px; border: 1px solid black; border-radius: 50%;"></div> <div style="width: 10px; height: 10px; border: 1px solid black; border-radius: 50%; background-color: gray;"></div> <div style="width: 10px; height: 10px; border: 1px solid black; border-radius: 50%; background-color: black;"></div> </div>	High, medium, or low tolerance of salt, fumes, or other city stresses
8. Transplanting	R S	Recovery is slow after planting Spring planting recommended
POTENTIAL PROBLEMS AND ORNAMENTAL TRAITS		
9. Nuisances	D F L M	Debris from twigs, bark, or flowers Fruit or seeds troublesome Lawn problems Malodorous flowers or fruit
10. Hazards	B P S T	Breakage caused by storms Pipes clogged by roots Sidewalks heaved by roots Thorns can be injurious
11. Diseases	◇ ◆	Light, seldom serious, or potentially severe damage caused by disease(s) in some years
12. Insects	△ ▲	Light, seldom serious, or potentially severe damage caused by insects in some years
13. Flower color	★ ★ ★ ☆	Orange, pink, red, yellow, white flowers
14. Fruit color	● ● ● ● ●	Blue, orange, purple, red, yellow fruit
15. Foliage colorful	A G S	Autumn foliage is colorful Growing season foliage is colorful Spring foliage is colorful
16. Features	B F L W	Bark or branches are attractive Fragrance is pleasing Leaves are distinctive Winter silhouette or color is attractive

1. Trees shaded with red are not to be considered.
2. Trees must be compatible with the proposed site i.e. overhead utility lines, soil type, soil moisture
3. All trees proposed to be street trees must be approved by the Tree Warden.
