### APPLICATION SUMMARY:
The applicant is requesting a re-approval of a 2014 approval for a final site plan and special permit approval to construct a building of 2,308 sq. ft., to include retail/commercial (Use Group 8) on the first floor and two moderate income housing units on the second floor, 7 parking spaces including 1 handicap space, drainage structures and retention of retaining walls, per Sections 6-13 through 6-15, 6-17, 6-101, 6-103, 6-110(g), 6-158, and 6-205 of the Town of Greenwich Building Zone Regulations on a 5,084 sq. ft. property located at 9 South Water Street in the LBR-2 zone.

The Zoning Board of Appeals granted variances of rear and side yard setbacks, lot coverage and required parking at their 9/23/11 meeting with the condition that the first floor be limited to Use Group 8 and the second floor be limited to two, one-bedroom units. The Commission noted that there would be no objection if the applicant chose to return to the Zoning Board of Appeals to request a second bedroom in each unit and further notes that there is no difference in the parking demand between a one-bedroom and two-bedroom unit. The applicant went back before the Zoning Board of Appeals at the June 9, 2021 meeting. After due consideration, the Board found there was hardship due to the lot’s size and shape. Therefore, the requested variances for rear and side yard setbacks, lot coverage, and required parking to permit the construction of a new mixed use building with 2 (two) 2 (two) bedroom units on the second floor and use group 8 uses on the first floor, as shown on the architectural floor plan drawings revised July 11th, 2001 was granted from sections 6-158 and 6-205. The Board further noted that this approval is a re-approval of a previous variance granted February 6, 2017.

The property owner obtained a zoning permit sign-off to start the work in 2017, but no Building Permit was sought.

The Planning and Zoning Commission revised the Building Zone Regulations for Moderate Income
Dwelling Units in May 2021. The impact on approval is that some of the variances would not have been necessary, and further that the units would no longer have to be deed restricted in perpetuity but rather for only 40 years.

ISSUES TO BE ADDRESSED:
1. A new declaration of restriction is needed to reflect the requirements of the regulations approved in 2021.
2. The 2014 approval was for a building of 2,516 sq. ft., and it appears the proposal is now for 2,308 s. ft. The discrepancy should be explained.

APPLICABLE REGULATIONS:
Section 6-15, 6-17, and 6-110, 6-104, 6-155 (parking), 6-158, 6-185 (Site Plan), and 6-205.

DEPARTMENT COMMENTS:
ZEO – See attached – Return prior to Zoning Permit
DPW ENGINEERING – See attached – Return prior to Zoning Permit
DPW SEWER – Not yet received
FIRE – Not yet received
Reviews provided by the Engineering Division are for compliance with the Town’s “Roadway Design Manual and Standard Construction Details” and “Drainage Manual” as amended. Reviews are based upon the information and plans provided. Comments pertaining to the Town’s manuals are not all encompassing. Other reviewing entities may provide additional comments regarding consistency with these manuals in accordance with their jurisdictions. Review of sanitary sewer and septic systems are not reviewed by the Engineering Division.

All New Submittals for Commission Meetings must be received by the Engineering Division four weeks before scheduled Commission Meeting.

All Revised Submittals for Commission Meetings must be received by the Engineering Division three weeks before scheduled Commission Meeting.

Reviewed and Approved by: Scott Marucci - Senior Civil Engineer Date: 06/16/2021

COMMENTS AND CONDITIONS OF APPROVAL: Resubmit Prior to Zoning/Building Permit Approval

1. The drainage easement and map needs to be approved by the Law Department and P&Z. It is recommended that the easement and map be filed on the Land Records prior to a building permit unless acceptable to P&Z that it be completed before a Certificate of Occupancy.
2. Form SC-107 needs to be submitted.
3. The Drainage Summary Report is acceptable.
4. The construction plan set that was submitted is not the approved set from the last submittal dated 9/12/2016. The plan has a revision date of September 6, 2016. The correct set must be submitted or new revised plans must be submitted.
5. The Operations and Maintenance Plan Report must be a separate document and include the following:
   b. Exhibit A: Long-term Maintenance Plan that prescribes those activities that must be carried out to maintain compliance with this Declaration. A maintenance log form must also be included. A draft must be completed prior to Final Site Plan Approval. The final version must be submitted with the request for Certificate of Occupancy.
c. Exhibit B: Improvement Location Survey showing a location of the Property and an accurate location of each stormwater management practice affected by this Declaration. This must be submitted prior to the issuance of the Certificate of Occupancy.
d. The Maintenance Declaration will need to be filed on the Town of Greenwich Land Records prior to a Certificate of Occupancy. A review of the documents above must be completed before filing on the Town of Greenwich Land Records.

**Standard Conditions for Each Submittal**

1. The Engineering Division will no longer keep any records for the submittals. All records for the submittal shall be obtained from the Town of Greenwich Department/Division that has taken in applications and/or submittals. These documents are maintained within each office (e.g., P&Z, IWWA, and DPW Building and Highway Divisions).
2. All revisions to the reports and plans must follow the requirements in the Town of Greenwich Drainage Manual February 2014 as amended.
3. All revisions must be accompanied by a point-by-point written response to the Engineering Division’s comments.

**Standard Conditions of Approval**

1. The Operations and Maintenance Plan Report must include the following for the Certificate of Occupancy:
   b. The final completed Exhibit A, and B
   c. The Maintenance Declaration needs to be filed on the Town of Greenwich Land Records prior to a Certificate of Occupancy. A review of the documents above must be completed before filing on the Town of Greenwich Land Records.
2. The Town of Greenwich – Standard Construction Notes for Site and Subdivision Plans are conditions that must be met.
3. All requests for a Temporary Certificate of Occupancy (T.C.O.) or a Certificate of Occupancy (C.O.) shall be submitted one month before the T.C.O. or C.O. is required.
4. The submittal for a Temporary or Final Certificate of Occupancy must include the following:
   c. Field Inspection Record (All required photos) – Form SC-106 – Sealed and Signed by a Connecticut Licensed Professional Engineer.
   d. Bioretention Soil Testing Certification Sign-Off (as applicable with the bioretention soil gradation test and the phosphorous test for the mixed soil) – Form SC-104 – Sealed and Signed by a Connecticut Licensed Professional Engineer.
   h. A Letter discussing all the work that remains to be completed (Only for a Temporary Certificate of Occupancy Submittal).
APPEAL No. PLZE202100030

Appeal of 9-11 South Water Street, LLC, 9-11 South Water Street, Greenwich for variances of rear and side yard setbacks, lot coverage and required parking to permit the construction of a new 2,308 square foot mixed use building in the LBR-2 zone.

It was unanimously resolved that said appeal be granted on the following grounds:

After due consideration, the Board found there was hardship due to the lot’s size and shape. Therefore, the requested variances for rear and side yard setbacks, lot coverage, and required parking to permit the construction of a new mixed use building with 2 (two) 2 (two) bedroom units on the second floor and use group 8 uses on the first floor, as shown on the architectural floor plan drawings revised July 11th, 2001, is granted from sections 6-158 and 6-205.

The Board notes that this approval is a re-approval of a previous variance granted February 6, 2017.

The Board further finds that this relief can be granted without detriment to the public welfare or impairment to the integrity of the regulations.

Board Members seated for this appeal were: Patricia Kirkpatrick, Arthur Delmhorst, Ken Rogozinski, Wayne Sullivan and John Vecchiolla.

The following information must be supplied by the applicant and submitted in addition to, and along with, any application, plans and data required for approval of the proposed project under the zoning and/or subdivision regulations of this municipality. Attach additional sheets if more space is required.

I. PLANS

A. Project Plan(s)
This application must be accompanied by a plan (or plans) of the entire project indicating 1) project location, 2) design of all existing and proposed buildings, structures, and uses, 3) all proposed site improvements or alterations, and 4) ownership and type of use on adjacent properties.

B. Coastal Resources
This application must be accompanied by a plan showing the location of all coastal resources (as defined in Section 22a-93(7) of the Connecticut Coastal Management Act) on and contiguous to the site.

II. WRITTEN INFORMATION

A. Description of the Proposed Project
Describe the entire project including types of buildings and structures, uses, methods and timing of construction, type and extend of development adjacent to the site. This information should supplement and/or clarify plans in I (A) above.

The Project consists of the construction of a 2,516 square foot commercial and residential building on a 5,084 square foot parcel in the LBR-2 zone. The project also includes the construction of a parking lot for 7 cars, including one handicap space, and drainage and utility improvements. Two residential units are proposed on the second story of the building to be used for moderate income housing, as per the Greenwich Building Zone Regulations. The first floor will be used for commercial space. A zoning variance was granted on September 23, 2013 - Appeal No. PLPE2013000847 and re-approved on January 25, 2017 - Appeal PLPE20160084.
B. Description of Coastal Resources

Identify the coastal resources on and contiguous to the site (as shown on the coastal resources map) and describe their condition. This information should supplement and/or clarify the plan in (B) above.

Flood Hazard & Tidal Wetlands

C. Assessment of the Suitability of the Project for the Proposed Site and the Capability of the Resources to Accommodate the Proposed Use.

(1) Identify any and all coastal use policies (in Section 22a-92(10)(b)(1) of Connecticut Coastal Management Act) applicable to the proposed project.

The building and improvements shall be constructed to meet all current flood zone and building code requirements.

(2) Identify and all coastal resource policies (in Section 22a-92(10)(b)(2) of Connecticut Coastal Management Act) applicable to the proposed project.

Preserve Tidal Wetlands; Manage coastal hazard areas.

(3) Describe how the proposed project is consistent with all of the coastal policies identified in C (1) and (2) above (i.e. describe the extent to which the project complies or conflicts with each policy). Note: If a project conflicts with any policy, the project should be modified to reduce or eliminate the conflict.

All new construction will comply with Flood Zone Regulations and be located more than 200 feet from the nearest coastal resources.

D. Evaluation of the Potential Beneficial and Adverse Impacts of the Project and Description of Proposed Methods to Mitigate Adverse Effects.

(1) Identify and describe the potential adverse impacts (as defined in Section 22a-93(15) of Connecticut Coastal Management Act and potential beneficial impacts of the project on coastal resources.

No adverse impact.

FOR WATERFRONT PROPERTY ONLY:
(2) Is the project a water dependent use as defined in Section 22a-93(16) of the Connecticut Coastal management Act? If, so, explain why.

N/A.
FOR WATERFRONT PROPERTY ONLY:

(3) Describe the impacts or effects (either positive or negative) that the project will have on future water dependent uses or development on and adjacent to this site as defined in Section 22a-93(17).

N/A.

(4) Describe the proposed measures to mitigate (reduce or eliminate) any adverse impacts on coastal resources described in D(1) and, if applicable, on future water dependent development opportunities described in D(3).

Comprehensive, best management practices for S&E controls shown on plans.

E. Demonstration of the Acceptability of Remaining or Unmitigated Adverse Impacts on Coastal Resources and Future Water Dependent Uses and Development.

(1) Describe any adverse impacts that remain after employing all reasonable mitigation measures.

None.

(2) Explain why these remaining adverse impacts were not mitigated.

N/A

(3) Explain why the commission reviewing this application should find these remaining adverse impacts to be acceptable.

N/A

The Applicant is the owner of a vacant, 5,084 square foot parcel located at 9-11 South Water Street in a Coastal LBR-2 Zone in Byram. The Applicant seeks Final Coastal Site Plan Approval and Special Permit Approval for the construction of a 2,516 square foot commercial/residential building on the property to house a commercial retail store on the first floor and two moderate income housing units on the second floor. Site improvements, including drainage facilities, parking for 7 cars, including one handicap space, and walls and utility connections are also proposed.

This is application is identical to Site Plan and Special Permit Application PLPZ201400429, which was approved by the Planning & Zoning Commission on September 9, 2014. A copy of the approval and final P&Z sign-off memorandum is attached hereto.

The Application will require variances from the Zoning Board of Appeals for which application has been made. Although the property is located within the Coastal Zone, the proposed construction does not impact any coastal area resources and is located more than 200 feet from the nearest coastal resource.

The proposal is compatible with surrounding buildings in use, size and proportion, nor will it be detrimental to the neighborhood or alter the neighborhood’s essential characteristics. Approval of the Coastal Site Plan and Special Permit Applications is kindly requested.

Respectfully submitted,

Frank Napolitano

Date: June 1, 2021
Site Plan Review Checklist

Property Address: 9-11 South Water Street, Greenwich, CT 06830
Anticipated Type of Application: Coastal Site Plan and Special Permit

Tax ID: 04-1704/S

All applications for preliminary and final site plan approval shall be made on the appropriate forms as provided by the Planning Staff. The following items must also be provided with the application. If any of the following items are not filed at the time of application, the application may be returned to the applicant in order that it may be filed in the entirety at an appropriate future date. Required Items: (Sec. 6-14)

Please check the items submitted below:

☐ 1. Fifteen copies of a survey, folded to 9" x 12", showing existing conditions, including:
   □ a. Locations and dimensions of all existing buildings, structures, fences, retaining walls, utility facilities, trees of six (6) inches or more in diameter at breast height, and other similar features.
   □ b. Existing contours at no more than a two-foot vertical interval, unless waived by the commission Staff in circumstances where such contours may not be necessarily pertinent. The survey shall indicate topographic conditions of property immediately adjoining the subject parcel.
   □ c. The location of all existing watercourses, intermittent streams wetlands as required by IWWA, Flood Hazard Lines as determined by FEMA, springs and rock outcrops or a note indicating that none exist, with the sources of information listed.
   □ d. The zone in which the land to be developed falls and the location of any town and zone boundary lines within or adjoining the tract, and yard dimensions to existing buildings. Lot area, by zone, shall be indicated.
   □ e. The title of the development, date, revision date if any and nature of revision, north arrow, scale, and the name and address of owner and names of owners of adjacent land.
   □ f. Street and property lines, curbs, edges of pavement, sidewalks, easements, right-of-way, covenants, and deed restrictions.
   □ g. Traffic lights and controls, public trees, catch basins, hydrants, and power and telephone lines in adjacent streets.
   □ h. Certification with the signature and seal or registration number of a registered land surveyor licensed in the State of Connecticut that the drawing is substantially correct to A-2 Standards, and that the property is in a designated zone under the zoning regulations.

☐ 2. Fifteen sets of a detailed Site development plan, at a readable scale, folded to 9" x 12", prepared in accordance with all applicable Town standards including the Roadway Design and Drainage Design Manuals, and signed by a professional architect, land surveyor, or engineer licensed in the State of Connecticut, showing:
   □ a. Location, dimension, and elevation of all proposed buildings, structures, walls, fences.
   □ b. Location dimensions and surface treatment of all existing and proposed parking and loading spaces, traffic access and circulation drives, and pedestrian walks. Sidewalks are to be provided as required by the Building Zone Regulations.
   □ c. Approximate location of proposed utility lines, including water, gas, electricity, sewer and the location of any transformers.
   □ d. Note specifying source of water supply and method of sewage disposal.
   □ e. Existing and proposed contours at no more than a two-foot interval unless waived by the Commission’s staff. Cuts and fills and estimates of blasting to be submitted at time of final site plan.
   □ f. Location, size and type of proposed landscaping and buffer planting and the designation of those areas of natural vegetation not to be disturbed.
   □ g. Any other similar information determined by the Commission staff to provide for the proper enforcement of the Building Zone Regulations.
   □ h. Zoning statistics including: Gross Floor Area, Floor Area Ratio, Usable Floor Area, Required Parking, Actual Parking

GREENWICH INLAND WETLANDS & WATERCOURSES AGENCY QUESTIONNAIRE
[This form is NOT an IWWA Application]

PROJECT: Street Address

TAX ACCT.# 041-1704

Has there ever been an IWWA application for this site? YES NO

WORK SITE: Driveway or access strip is on the N S E W side of: South Water Street (street),

approximately 60 feet N S E W from the intersection of Mill Street (streets)

ACTIVITY: (Circle ONE) Addition Demolition Deck Garage Interior renovations New residence Pool Tennis court

Other (please specify) NOW MIXED USE BUILDING

NOTE: A separate form is required for each activity.

Only a demolition does NOT require a plot plan.

Will this activity require an addition to the septic system? YES NO

Owner’s full name [please print] 9-11 South Water Street, LLC Phone (203) 496-1033

Mailing address 151 Kings Street Town Greenwich Zip 06831

Authorized Agent’s name [please print] Frances Napolitano Phone (203) 629-2341

Mailing address 354 West Polmone Avenue Town Greenwich CT Zip 06830

YOU MUST INCLUDE A PLOT PLAN, SHOWING THE PROPOSED ACTIVITY IN RED, WITH THIS QUESTIONNAIRE.

If you do not, staff review of your proposal will be delayed or prevented. An incomplete questionnaire can prolong the process.

IWWA staff will review this questionnaire to determine if regulated activities may occur as a result of your proposal, necessitating an IWWA permit.

If your project does not require an IWWA permit, we will sign off on this questionnaire, which you will need if you are obtaining permits from other departments.

If an IWWA permit is required, we will supply you with a permit application packet. You must obtain a permit prior to the commencement of your project. No work may begin until you receive an IWWA permit. The issuance of a building permit alone does not constitute an authorization to proceed. The Agency may impose penalties on any person who commits or assists in any violation of the IWWA Regulations.

If you do not receive notice regarding your questionnaire within two weeks of submission, please contact the IWWA office.

As the property owner or authorized agent [check one] I believe that the information I have submitted is correct.

Signature ___________________________ Date 5/17/11

Please return this completed form to the
Greenwich Inland Wetlands & Watercourses Agency
and wait for its review before applying for a building permit

RE: Application of 9-11 South Water Street for Site Plan and Variance Approvals
For 9-11 South Water Street, Greenwich Connecticut

To Whom It May Concern:

I am the managing member of 9-11 South Water Street LLC, owner of 9-11 South Water Street, Greenwich, CT (the “Property”). Please be advised that I have authorized Law Offices of Frank Napolitano, LLC to represent me in land use approvals from the Town of Greenwich for improvements at the Property and in attendant regulatory matters relating to same.

Very truly yours,

[Signature]
Dale Antonik
Drainage Summary Report
9-11 South Water Street LLC

This owner is proposing to construct a 1258 square foot building with an associated drive and parking area. Originally the site was covered with 3 buildings and a driveway partially constructed with asphalt concrete and partially with Portland cement concrete. Runoff from the site flows generally overland in a westerly direction and then discharges onto South Water Street where it is accepted into an existing drainage system. Using the Rational Method, the peak 25 year rate of runoff flowing off of the site into the South Water Street drainage system for pre and post conditions were computed to be 0.44 c.f.s. and 0.61 c.f.s. respectively. It is proposed to collect the runoff from all of the new impervious surfaces and discharge it directly into the existing 18” PVC in South Water Street which has a capacity of 17 c.f.s. It should be able to adequately accept the 0.17 c.f.s. increase generated by the development. As a result we can be assured that this development will not have any adverse hydrological or hydraulic impacts on any abutting or downstream properties or drainage facilities.

To the best of my knowledge, the drainage aspects of this proposal comply with the Town of Greenwich Roadway Design Manual, Drainage Manual, and Construction Standards.

Respectfully submitted,

Leonard M. Szczesny, P.E.
Chief Engineer

Date: December 9, 2010
**Hydrology**

**PEAK 25 YR. RUNOFF TO SOUTH WATER STREET BEFORE**

- \( A = 5084 \text{ sf} = 0.12 \text{ acres} \)
- \( T_c = 10 \text{ min.} \) (Seeley Chart)
- \( i_{25} = 6.4 \text{ in/hr.} \) (Intensity-Duration Curve)
- \( C = \frac{2713(0.9)}{5084} + \frac{2971(0.2)}{5084} = 0.57 \)

\[ C_i \cdot A = 0.57(6.4)(0.12) = 0.44 \text{ CFS} \]

**PEAK 25 YR. RUNOFF TO SOUTH WATER STREET AFTER**

- All values the same except \( C \)
- \( C = \frac{9276(0.9)}{5084} + \frac{808(0.2)}{5084} = 0.79 \)

\[ C_i \cdot A = \]

\[ C_i \cdot A = 0.79(6.4)(0.12) = 0.61 \]

\[ A \cdot Q_{25} = 0.61 - 0.44 = 0.17 \text{ CFS} \]

18" PVC (\( c = 0.037 \)) in South Water Street has a capacity of 18 CFS. Should be able to accept 0.17 CFS. Increase

RE: 9-11 South Water Street, LLC – 9-11 South Water Street

Dear Sir:

S. E. Minor & Co., Inc. (SEM) has established proposed Grade Plane for the above referenced project to be 24.75 for a weighted first floor elevation of 25.5 as shown on attached worksheet and sketch by S. E. Minor & Co., Inc. and based on Planning and Zoning Regulations Section 6-5 (26). We have also determined that the finished floor is less than 5 feet above grade for more than 70% of the perimeter and at no point is the finished floor more than 12' above grade.

Please feel free to call if you have any questions regarding this matter.

Respectfully submitted,

S. E. Minor & Co., Inc.

PEAK 25 YR. RUNOFF TO SOUTH
WATER STREET BEFORE

\[ A = 5084 \text{ acres} \]
\[ S, t = 0.12 \text{ hr} \]
\[ T_c = 18 \text{ min} \] (SEELEY CHART)
\[ i_{25} = 6.4 \text{ in/hr} \] (INTENSITY-VARIATION CURVE)
\[ C = \frac{2713(0.9)}{5084} = 0.57 \]
\[ = \frac{2371(0.2)}{5084} = 0.47 \]
\[ = \frac{5084}{5084} \] (AVE. U.E.)
\[ Q_{25} = C \times A = 0.57 \times (6.4)(0.12) = 0.44 \text{ CFS} \]

PEAK 25 YR. RUNOFF TO SOUTH
WATER STREET AFTER

ALL VALUES THE SAME EXCEPT "C"

\[ C = \frac{4376(0.9)}{5084} = 0.79 \]
\[ = \frac{808(0.2)}{5084} \] (AVE. U.E.)
\[ Q_{25} = C \times A = 0.79 \times (6.4)(0.12) = 0.61 \]
\[ A Q_{25} = 0.61 - 0.44 = 0.17 \text{ CFS} \]

18" PVC (S = 0.037) IN SOUTH WATER STREET
HAS A CAPACITY OF 17 CFS.
SHOULD BE ABLE TO ACCEPT 0.17 CFS INCREASE.
### 8" PVC FROM SOUTHERLY BASIN

\[ A = 1690 \text{ S.F.} = 0.04 \text{ ACRES} \]
\[ C = 0.90 \text{ (IMPEMISSIVE)} \]
\[ c_{25} = 6.4 \text{ in/hr (FROM PREVIOUS ANALYSIS)} \]
\[ \therefore Q_{25} = Ci4A = 0.9(6.4)(0.04) = 0.23 \text{ CFS} \]

\[ Q_{\text{PIPE}} = \frac{1.486}{m} A R^{0.5} S^{1/2} \]
\[ m = 0.013, \ A = 0.35 \text{ S.F.}, \ R = 0.17, \ S = 0.01 \]
\[ \therefore Q_{\text{PIPE}} = \frac{1.486}{0.013} (0.34) (0.17)^{0.5} (0.01)^{1/2} = 1.2 \text{ CFS} > 0.23 \text{ CFS} \]

### 8" PIPE FROM NORTHERLY BASIN

\[ A = 5084 \text{ S.F.} = 0.12 \text{ ACRES} \]
\[ C = 0.79 \text{ (FROM PREVIOUS ANALYSIS)} \]
\[ c_{25} = 6.4 \text{ in/hr (FROM PREVIOUS ANALYSIS)} \]
\[ \therefore Q_{25} = Ci4A = 0.79(6.4)(0.12) = 0.61 \text{ CFS} \]

\[ Q_{\text{PIPE}} = \frac{1.486}{m} A R^{0.5} S^{1/2} \]
\[ m = 0.013, \ A = 0.35 \text{ S.F.}, \ R = 0.17, \ S = 0.01 \]
\[ \therefore Q_{\text{PIPE}} = \text{SAME AS ABOVE} = 1.2 \text{ CFS}, \]
\[ 1.2 \text{ CFS} > 0.61 \text{ CFS} \]

**NOTE:** All deep holes shall be excavated to an elevation three feet below the final elevation of the proposed foundation. All backfill shall be compacted to a minimum of 94% of the Standard Proctor. The Proctor shall be performed on representative samples of the fill material. The design soil type is Clayey. Groundwater level was observed 6 inches below groundwater level. The Permeability of the Formation was determined using the standard procedure for the Miniature Permeameter Method. The Project Name: Leonardi M. Sciscioy, P.E.

</table>

All calculations are based on installed chamber length. Assuming 6" stone base and 6" stone above units. Total storage retention is the minimum storage when installed surrounded in stone according to above spacing and burial recommendations. Storage volume may be increased by adding additional stone above or below the units. Other models are available, please call CULTEC's Technical Department at 1-800-4-CULTEC if you need further information and assistance.

1 **Minimum Effective Depth** does not take into consideration any additional fill requirements or final grade materials above the 6" of stone above the units. Please refer to Table 2 on page 13 for total minimum depth requirements from bottom elevation to final grade.
Storm Water Quality Calculations - WQV - Water Quality Volume

As defined in Chapter 7 of the "2004 CT Stormwater Quality Manual"

\[ WQV = \frac{(1^\text{in})(R)(A)}{12 \text{ IN/FT.}} \]

Area = Total inflowing drainage area on and off site entering stormwater quality system as Acres

Note: See drainage area map(s)

Drainage Area in Square Feet Entering System:
\[ A = \frac{5084}{43560} = 0.1167 \text{ Acres} \]

Percent of Impervious Cover Within Inflowing Drainage Area:
\[ I = \frac{4276}{5084} \times 100 = 84.11 \% \text{ of Impervious Area} \]

Volumetric Runoff Coefficient:
\[ R = 0.05 + 0.009(I) = 0.8070 \text{ Coefficient} \]

Water Quality Volume:
\[ WQV = \frac{1 \times R \times A}{12} = \frac{0.0078 \text{ Acre Feet}}{12} = 341.9 \text{ Cubic Feet Storage Required} \]

390.88 cubic feet of storage is provided with 4 Cultec V8 HD Chambers
September 23, 2014

Frank Napolitano, Esq.,
354 West Putnam Avenue
Greenwich, CT 06830

RESOLVED the applications of Frank Napolitano, Esq., authorized agent, for 9-11 South Water Street LLC, record owner, for a final coastal site plan and special permit, PLPZ 2014 00429 and PLPZ 2014 00430 to construct a 2,516 sq. ft. commercial/residential building with retail on the first floor and two, one-bedroom moderate income housing units on the second, parking for 7 vehicles and associated site and drainage improvements per Sections 6-13 through 6-15, 6-17, 6-101, 6-110, 6-111, 6-158, and 6-205 of the Town of Greenwich Building Zone Regulations on a 5,084 sq. ft. property located at 9-11 South Water Street in the LBR-2 zone as shown on a site plan prepared by S.E. Minor & Co., Inc., last revised 07/03/14 and unnamed architectural plans dated 10/10/09.

Dear Mr. Napolitano:

At a regular meeting held on September 9, 2014 the Planning and Zoning Commission considered the above referenced applications and took the following action:

Upon a motion to approve the final site plan and special permit modifications, made by Mr. Maitland and seconded by Mr. Brooks, the following resolution was adopted. (Voting in favor on this item: Mssrs. Heller, Maitland, Brooks, Levy and Mrs. Alban);

Whereas the Commission held a public hearing on 9/9/14 and took all testimony required by law; and

Whereas the applicant requested a final site plan and special permit approval to construct a building of 2,516 sq. ft., to include retail/commercial (Use Group 8) on the first floor and two moderate income housing units on the second floor, 7 parking spaces including 1 handicap space, drainage structures and retention of retaining walls, per Sections 6-13 through 6-15, 6-17, 6-101, 6-103, 6-110(g), 6-158, and 6-205 of the Town of Greenwich Building Zone Regulations on a 5,084 sq. ft. property located at 9 South Water Street in the LBR-2 zone; and
Whereas the property is a vacant lot located across the street from the Byram River, one property off the corner of South Water and Old Mill Road in Byram; and

Whereas the first floor retail floor space would comprises 1,258 square feet (944 sq. ft. usable); and

Whereas the use of the first floor would comply with Section 6-103 (E) of the BZR that states, "Except for access to and egress from upper floor permitted uses, uses on the ground floor shall be limited to uses listed in Use Group 8, except for Sales Agencies of real estate, employment, insurance or travel firms which are not permitted on first floor of the LBR zones. These uses are considered office uses and not retail uses. Other Group 8 uses shall occupy not less than 75% of the floor area of the largest floor of the building"; and

Whereas the second floor use is proposed as two, one-bedroom apartments although the Commission finds that from a parking standpoint they are considered two bedroom units under Section 6-155 because the TV den counts towards the parking demand. The total floor area of the second floor is 1,258 sq. ft; and

Whereas both units will be moderate income units pursuant to Section 6-110(g); and

Whereas the Commission notes that the Zoning Board of Appeals granted variances of rear and side yard setbacks, lot coverage and required parking at their 9/23/11 meeting with the condition that the first floor be limited to Use Group 8 and the second floor be limited to two, one-bedroom units; and

Whereas the Commission notes that there would be no objection from the Commission if the applicant chooses to return to the Zoning Board of Appeals to request a second bedroom in each unit and further notes that there is no difference in the parking demand between a one-bedroom and two-bedroom unit; and

Whereas the Commission notes that the applicant has provided a plan showing 7 parking spaces including 1 handicapped space; and

Whereas per Section 6-185, the surface parking spaces are all dimensioned as 9’ x 18’ except for the end spaces, which are shown as 10’ wide. The width between parallel parking spaces for 90 degree parking spaces is 23’; and

Whereas one large curb cut on South Water Street is proposed; and

Whereas the applicant provided a Drainage Summary Report, prepared by S.E. Minor dated 12/9/10, that describes the proposed stormwater plan to mitigate the increase in impervious surface; and

Whereas the water will flow off the property where it will be captured by the Town system on South Water Street; and

Whereas the Commission notes that the ARC reviewed this proposal; and

Whereas the Commission finds that the plan complies with Sections 6-15, 6-17, and 6-110(g), 6-104, 6-155 (parking), 6-158, 6-185 (Site Plan), and 6-205; and
THEREFORE BE IT RESOLVED THAT the applications of Frank Napolitano, Esq., authorized agent, for 9-11 South Water Street LLC, record owner, for a final coastal site plan and special permit, PLPZ 2014 00429 and PLPZ 2014 00430 to construct a 2,516 sq. ft. commercial/residential building with retail on the first floor and two, one-bedroom moderate income housing units on the second, parking for 7 vehicles and associated site and drainage improvements per Sections 6-13 through 6-15, 6-17, 6-101, 6-110, 6-111, 6-158, and 6-205 of the Town of Greenwich Building Zone Regulations on a 5,084 sq. ft. property located at 9-11 South Water Street in the LBR-2 zone as shown on a site plan prepared by S.E. Minor & Co., Inc., last revised 07/03/14 and unnamed architectural plans dated 10/10/09 are hereby approved with modifications.

The applicant must setup a meeting with Staff to provide the documentation for Zoning Permit sign-off:

1. A Declaration of Restrictions stating the covenants and restrictions that will run with the land for all current and future owners of two units pursuant to Section 6-110(g) (Moderate Income Housing) of the Building Zone Regulations should be provided for review. Prior to the issuance of any C.O., the Declaration will need to be filed on the Greenwich Land Records.

2. A construction phasing plan should be submitted to accompany the soil and erosion control plan. The number of trucks loads per day for the fill should be included – and the access point for the vehicles should be included.

3. A photometric plan should be submitted.

4. The location and noise specifications of any mechanical equipment should be submitted.

5. A planting plan shall be provided.

6. Parking spaces (#6 and #7) should be reserved for residential use only, which leaves 4 spaces on-site for the retail use on the first floor.

7. The proposed lot coverage must be shown on the plans.

Sincerely,

[Signature]

Katie DeLuca, AICP
Acting Director of Planning and Zoning
PLANNING AND ZONING - LAND USE DEPARTMENT

TO: Jodi Couture, Zoning Enforcement Officer
    Bill Marr, Building Official

DATE: May 3, 2017

RE: Zoning Permit Issuance
    9-11 South Water Street
    PLPZ201400429,430
    Final Coastal Site Plan & Special Permit
    9-11 South Water Street, LLC

    New mixed-use building (2 moderate income units above retail space), parking,
    drainage and site improvements

Please find the site development plans prepared by S.E. Minor & Co. Inc., last revised on 9/6/2016,
unnamed architectural plans last revised on 7/1/2011, and architectural elevation plans prepared by Shoreline
Design Group LLC, last revised on 8/8/2016, depicting the construction of a commercial/residential
building with retail on the first floor and two, one-bedroom moderate income housing units on the second,
parking for 7 vehicles and associated site and drainage improvements on a 5,084 sq. ft. property located in the
LBR-2 zone.

Planning & Zoning staff has no objection to the issuance of zoning permits for the proposed
improvements subject to the following conditions:
1. ZEO shall confirm compliance with all relevant sections of the Building Zone Regulations.
2. All required permits shall be issued by the Sewer Department prior to any demolition or the issuance
   of a building permit.
3. Parking spaces #6 and #7 shall be reserved for residential use only.
4. Soil and Erosion controls shall be installed and remain intact for the duration of the project.
5. The Town of Greenwich-Standard Construction Notes for Site and Subdivision Plans are conditions
   that must be met.
Prior to the issuance of a certificate of occupancy, the applicant must make an appointment with the Planner and shall submit the following:

1. Four (4) copies of a location improvement survey that depicts as-built conditions from a Surveyor Registered in the State of Connecticut shall be submitted and approved by Planning & Zoning after construction is complete.
2. Four (4) copies of as-built architectural plans from an architect registered in the State of Connecticut.
3. The Declaration of Restrictions stating the covenants and restrictions that will run with the land for all current and future owners of two units pursuant to Section 6-110(g) of the Building Zone Regulations shall be filed on the Greenwich Land Records. Planning & Zoning must receive three (3) copies of the filed Declaration.
4. The Drainage Easement and map shall be filed on the Greenwich Land Records and three (3) filed copies of each be submitted to Planning & Zoning.
5. The Operations and Maintenance Plan Report must include the following for Certificate of Occupancy:
   i. The final completed Stormwater Management Practices Maintenance Declaration
   ii. The final completed Exhibit A, and B
   iii. The Maintenance Declaration needs to be filed on the Town of Greenwich Land Records prior to a Certificate of Occupancy. A review of the documents above must be completed before filing on the Town of Greenwich Land Records.
6. One (1) set of digital copies (on CD) of as-built plans, reports and all other pertinent information required for DPW-Engineering review shall be submitted.
7. Planning & Zoning staff shall inspect the as-built conditions to verify compliance with the Planning & Zoning Commission approvals.
