### 3. **Discuss Budget Process**

The Committee was asked to reframe thinking for the spending role to be assumed. A suggested draft plan proposed three phases between July 2021 and December 2023.

The Committee was asked to define the process for spending the funds by:  
Reviewing the Federal website for the final rules for distribution, researching counterparts in other municipalities' plans for using funds, and consider a proposed framework for awarding funds.

In the discussion that followed, several suggests were made such as seeking additional administrative project support; taking a global approach on how to react to the next pandemic; advise public on eligibility; and possibly assign a committee member to each recipient group – Non-profit, Small Business, Households, Town and Health.
