Form A Electrical Insulation Resistance Test

Property Owner _____

Affected property Address _____

To Division of Building Inspection,

I hereby certify that I have conducted a thorough inspection on the electrical system recently damaged by water or fire at the above referenced property and the following has been noted:

- All affected wiring and electrical equipment was inspected and tested and no water or heat damage was detected in the test. My investigation indicated that no repairs or replacement of electrical equipment or wiring is required and the electrical service is in a safe condition to be re-energized
- The affected electrical system was inspected and tested and water or heat damage was detected and the following has been noted:
 - All affected/damaged circuits, electrical equipment, devices and wiring have been disconnected from the electrical panel and the electrical service and connected circuits are in a safe condition to be re-energized.
 - Replacement of all affected/damaged circuits, electrical equipment, devices and wiring will be required. **I understand that it is my responsibility to replace all electrical equipment, devices and wiring that came in contact with salt water.**

I hereby acknowledge that I am responsible for filing an electrical permit with the Division of Building Inspection for any required repairs or replacement of electrical equipment, devices and wiring and that it is my responsibility to schedule an inspection of the work and receive an approval before any of the above affected electrical system is re-energized.

Note: According to the National Electrical Manufacturers Association [NEMA] all electrical devices, equipment and wiring affected by salt water are required to be replaced. This includes control wiring for heating equipment.
