First Aid Kit for Public Pool  

The Twenty-Four Unit First Aid Kit Equivalent required for all Public Pools includes the following equipment:  

I. FIRST AID BOX  

The first aid box should be closed, but unlocked and accessible to personnel only, and out of reach of children.  

Consideration should be given to having additional first aid boxes when facilities in swimming pool complexes are widely separated.  

1. Assorted sizes of adhesive strips (band-aids).  
2. Sterile individually wrapped gauze squares – 3” x 3” or 4” x 4” (dated).  
3. Two inch (2”) gauze roller bandage (dated).  
4. Adhesive tape (non-allergenic) – 1 roll 1/2”.  
5. Tongue Depressors to splint injured fingers.  
7. Tweezers.  
8. Instant cold compress (2).  
9. Thermometer or Fever Strip.  
10. Alcohol swab to clean thermometer.  
11. One (1) ounce bottle of Syrup of Ipecac to be given ONLY UNDER ORDER OF POISON CONTROL CENTER OR PHYSICIAN.  

II. ADDITIONAL RECOMMENDED SUPPLIES  

1. Soap to cleanse wounds – (Antiseptic).  
2. Flashlight and extra batteries.  
5. Box of Tissues.  

III. REVIEW AND REPLACE SUPPLIES REGULARLY  

1. Sterile supplies not used after one year should be used as clean, but not sterile supplies.  
2. Date of last review of supplies should appear on outside of box.  
3. Supplies should be replaced as they are used or upon date of expiration.
