5. The District has addressed HQUSACE comment 6.a. of the memorandum approving the modified self certification form. The costs have been reviewed and updated per comment 6.a. The study, as described in the Project Management Plan, is in compliance with the 3x3x3 rule, as it is scheduled for 3 years with a budget of \$2,993,760. The study will be cost-shared 50/50. Because the Non-Federal sponsor will be contributing its entire share as in-kind services, the costs of cash contributions under Articles III and IV total \$0, and the cost of in-kind contributions is \$1,496,880.

6. The District is prepared to execute this FCSA immediately upon approval by NAD.
