RRP Intake Form for Building Permits For Pre-1978 Residential Projects

What is RRP?

RRP is the Federal EPA's Renovation, Repair, and Painting Program. This law requires contractors that disturb painted surfaces in homes, child care facilities, and schools built before 1978 to be certified by EPA and follow specific work practices to prevent lead contamination. Individuals employed by the firm must be trained and certified. The contractor must give property owners and residents a copy of "Renovate Right", a pamphlet describing the lead-poisoning risks that may come from renovation activity in homes built before 1978. The following information is necessary to assist EPA Region 1 and the State of CT in its efforts to eliminate lead poisoning in children and adults. The contractor must provide the following information prior to obtaining a local construction or renovation permit:

Business name: _____

Business address: _____ CT HIC #: _____

EPA RRP Lead-Safe Certified Firm # (optional): _____

EPA RRP Renovator training certificate #(s): _____

Property Owner: _____

Property Address: _____ Parcel ID #: _____

Scope of work: _____

By signing below, I state that I will provide a copy of the EPA *Renovate Right*, lead-hazard pamphlet to the owner(s) and residents of the property before the work begins. I further agree to follow all lead-safe work practices to protect residents and workers from lead exposure.

Contractor name (print): _____

Contractor's Signature: _____ Date: _____

Homeowner Performing the Work – By signing below I state that I have received a copy of the EPA pamphlet *Protect Your Family from Lead in Your Home*, there is potential for lead contamination of the home during the course of the project and acknowledge that children under six (6) years of age are most at risk for lead poisoning.

Property Owner: _____ Date: _____

Signature

Health Department Official: _____ Date: _____
