| 375 Gas pipe test | 475 Gas pipe test – propane tank |
| 399 Final plumbing | 491 Radiant heat piping |
| | 499 Final HVAC |

IMPORTANT NOTICE

When requesting rough and/or final inspections the permittee is required to request them for the entire project. Partial inspections of different phases of construction will not be made unless the permittee has submitted a phasing plan (floor plans clearly indicating each phase) to be reviewed and pre-approved by Division of Buildings office staff at the time of permit application. Approval of phasing plans for partial inspections will be stamped

approved and a copy of same given to the permittee to keep on the job site for reference. Each phase of the construction will receive a separate Inspection Record Card to record inspection activity.
